COMMENTS FROM THE TOWN MANAGER'S OFFICE

A file of town reports is maintained at the Town Office. Beginning with 1891 to the present year the file is complete except for the year 1892, and all years prior to 1891 in which town reports were issued. If anyone has a file of old town reports that contains these missing years, it would be appreciated if they could donate to the town those copies which are missing in the town file.

The directional sign at the intersection of Railroad and Main Streets was removed last year due to its dilapidated condition. Currently a new sign is being painted and will be erected in the very near future.

During April and May it was noted that property owners in general took pride in cleaning up their premises, which adds to the general appearance of the town. In some instances in the village area it was noted that leaves and rubbish were carefully raked from the lawns into the ditch or gutter and left to blow over the neighborhood or to obstruct the drainage.

On May 31st a letter was received at the Town Office without any signature, but did close with "A Taxpayer." Unsigned letters or letters that close with a slogan without revealing the author are not worthy of much consideration or merit. An invitation is extended to the author of the letter to come to the Town Office for a confidential interview as pertains to the contents of the letter.

Sincerely,
Harold L. Bean

H., and their daughter-in-law, Mrs. Dorothy Pearson, Amesbury, Mass. The honored couple received lovely gifts including flowers and money tree and many congratulatory cards and messages. Mrs. Pearson wore a corsage of golden daisies and blue and white buttons by her sister, Mrs. Stanley Wentzell, Mrs. Meredith Cunningham, Ipswich, Mass., granddaughter, circulated the guest book. Highlight of mid-afternoon was when Mrs. Pearson appeared from their cottage, in her gown of white net and lace in which she was married 50 years ago. Pictures were taken of the honored couple and of various groups. Refreshments were served on the lawn. Centering the refreshments was a beautiful wedding cake, made by their daughter-in-law, Mrs. Dorothy Pearson, and decorated by their granddaughter, Mrs. Meredith (Pearson) Cunningham. This was cut by the bride of 50 years and served by three granddaughters, Miss Judy Towle, Miss Jane Towle, and Miss Dale Pearson. Added decoration to the refreshment table was a lovely rose decorated cake, made and given by Mrs. Leonas Holt.

ANNUAL GOULD CAMERA CLUB EXHIBIT FEATURES GAYLE FOSTER'S WORK

On the first floor of Hanscom Hall in Room 106 the annual exhibit of salon photographs is now being shown; as usual, it is one of the Commencement features not to be missed by parents, alumni, and friends of the school. A noteworthy feature of this year's showing is the fact that all twenty-nine prints are from the hundreds of pictorial photographs made by Gayle Foster, founder and sponsor of the Gould Camera Club; they are the cream of his forty years experience in this field and all of them have been selected in past years for showings in photographic salons from coast to coast, and even in Canada, England, and other far-flung spots. Mr. Foster's career in camera work was summarized in last week's "Bethel Citizen"; just what are some of the fruits of this career are now on display for all interested to see.

His interest in subject matter is wide; his sense of humor is evident in several of these extraordinary prints. Still life, country scenery, the hustle of the city as well as its quiet moods, beautifully composed shots of pavilions and statues taken at the New York World's Fair in 1939, all this and more are caught by his skilled eye and professionally trained lens. A haunting evocation of Manhattan is caught in METROPOLITAN MOOD, as the mid-town skyscrapers float in a dusty haze; the never-ending task of a window washer on the bleak heights of the RCA Building, a sleeping Negro Porter, legs askew, in a sunny spot in Grand Central, a Bethel farmhouse buried in snow to its eaves, drooping snow fingers like grasping hands, hanging from a long-lying bush, a cat standing like a feline queen atop a snowy tangle of bush — one could enumerate striking features in all twenty-nine.

A supplementary display of work of the Gould student members of the Camera Club in addition to many of the pictures taken for the school annual, the Academy Herald, is hung in the basement of Holden Hall, the boys' dormitory; this will well repay the visitor to the campus. Adjacent to the basement room is the darkroom, where many hours of work are spent in developing the pictures which the members take of about every school activity. Those who have photography as a hobby will enjoy a peek into this well equipped room.

Bethel can be proud to have numbered among its citizenry this nationally known master of the camera. Before leaving for what promises to be a very busy "retirement," Mr. Foster is most generously sharing his work with all who care to visit Room 106 before the show is dismantled this coming Sunday. A most hearty invitation to do so is extended to all.

CHRISTIAN SCIENTIST PRESIDENT CHOSEN AT ANNUAL MEETING

Decisions about national elections should come out of each voter's communion with God and the guidance obtained through prayer, The Christian Science Board of Directors said Monday.

More than 7,000 Christian Scientists at the Annual Meeting of The Mother Church, The First Church of Christ, Scientist, in Boston, heard the Directors' message which called for an end to apathy, irresponsibility, and blind partisanship.

"In the United States," the Directors said, "the current year will record important political decisions as well as international approaches." They added that "through prayer, we can rise above blind partisanship and the irresponsible tumult of aggressive mental suggestion."

Named President of The Mother Church for the coming year was Arthur W. Eckman of Cambridge, Mass. A lawyer, he is a native of Vicksburg, Miss. He was educated at the University of Texas, the University of Southern California, and Harvard Law School.

The Directors held that people of all lands will be delivered from tyranny through the freedom-giving power of spiritual understanding.

"With complete confidence in God's guidance," they declared, "Christian Scientists foresee the doom of the evil forces which would undermine righteous government, weaken human freedom, and sink mankind deeper into materialism."

Mr. Eckman emphasized the need for individual action through prayer to deal with impending challenges to civil and religious freedoms.

The threats to be coped with, he said, "are not merely external forces under authoritarian dictatorships that would seek to destroy our way of life. Vicious internal enemies, represented by organized crime in league with corrupt politics and subversive influences, claim the power to take over government in one community after another...."

Through reliance on God's power and guidance, these challenges will be met and mass freedoms reign supreme."
